Pool Play Format & Championship Rounds:

All divisions will play four pool games. Following pool play, all teams will be seeded into a single-elimination bracket for championship play on Sunday. Seeding will be determined by pool game

record all teams in an age division play the same number of games. Ties will be broken by head-to-head results, fewest runs allowed, then runs scored.

SPECIAL NOTE REGARDING SEEDING: In cases where teams in an age division play a different number of pool games due to weather cancellations or other unforeseen issues, seeding will be determined by the following formula: Teams will be awarded 2 points for a win, 1 point for a tie and 0 points for a loss. Total points earned then will be divided by the number of games played to determine the average points earned per game played. Teams then will be seeded from the highest to the lowest average points earned per game played. If teams are tied with the same average points earned per game, the first tie-breaker will be average runs given up per game played, then average runs scored per game played.

Higher seeded teams will be the home team in championship play. **Bracket games that are tied after the regulation number of innings, or after the time limit is reached, WILL USE THE INTERNATIONAL TIEBREAKER FORMAT until a winner is determined.**
